Whispers from The Brighter World

A Fifth Revelation

Monday, July 21, 2008 – 4:00 p.m.

You cannot imagine the impact the series of messages called 'The Quintessence of the Spirit' will have in the future. These three-voice exchanges will touch sensitive hearts, very subtly. They would deserve a choice edition all to themselves, accessible and reserved for our more fervent readers.

"The future will give them a special place. They will become, in their genre, a reference in our Mission and beyond that: the purest jewel of the sovereign Spirit and of sublimated love, the source of their inspiration.

"Time works in its own way; the higher will, will do what must be done to make the shared dream of three fervent hearts come true – hearts joined together in a special song capable, by itself, of delighting the angels.

"This hymn to love will appeal to sensitive souls; they will be favourably nourished by it."
