Whispers from The Brighter World

A Fifth Revelation

Saturday & Sunday, August 23 & 24, 2008 – 10:00 a.m.

As you know, all Christians, past and present, do not have an open mind on this reality. Each one understands what they can, according to their evolution and their broadness of outlook. A medium of your calibre stands beyond the social barriers and the limitations of all sorts relating to 'the beyond', as it is called. May all our brother and sister abhyasis open up to the discovery of the world of the Spirit; we help them with that in many ways. These messages, highly varied as a whole, are by themselves a means to open wide the doors of this universe which is still inaccessible to many of them;

"Contrary to religions, which are very strict about an old teaching fossilised by the force of things, we can forge ahead in accordance with the divine laws concerning the evolution of human beings. This is done by opening the eyes of the sceptics and making them go beyond their narrow points of view, which are maintained on taboo issues like this one in this world.

"May the time of knowledge – in the true sense of the word – come soon!

"Blessings to all!"

Babuji

"My son should rest assured: by dint of very big efforts on your part, the channel remains open for him. We maintain it for this purpose: to help him as much as possible and to show him, in part, the strength of your love and the

omnipotence of ours by being permanently present at his side on this hard path of his.

"All of us are listening to you, with the full extent of our love, in its manifestation. Be at peace and reinvigorated, my very dear son."

Babuji Maharaj
