Whispers from The Brighter World
A Sixth Revelation

Saturday, June 6, 2009 – 11:00 a.m.

Making these messages known is a 'punch', aimed at the ignorance of humans – an ignorance that is so widespread among them. This expression is deliberately colourful to show our acknowledgement of the situation. Only strong-minded people can make things evolve, with due respect to 'over-scrupulous' people of all sorts.

With this courageous act of its Master, our way places itself at the leading edge of a movement which is just starting. It is time that this world advanced, before it is completely overwhelmed by the fate reserved for the whole of humanity.

So it must be, and will be.
