Whispers from The Brighter World
A Sixth Revelation

Tuesday, July 28, 2009 – 10:00 a.m.

The impact of this seminar fulfils our hopes. My son has surpassed himself. He has exercised all his power, and the dissemination of the messages is positive. We are happy for that. Many hearts are moved. They become aware of the importance of these messages in a world that is drifting off in many respects and where only spirituality can provide a base of stability and hope to those who actually want to reflect on it and act accordingly for their evolution.

Time is pressing. Many people's minds are opening up to a higher reality; may they turn their backs on false beliefs. Such beliefs limit humans by stagnating them, slowing down their personal development.

May our brothers and sisters understand the true goal of life and fully act on it. We help them in that.

Let them all be blessed and enlightened on this difficult path.
