Whispers from The Brighter World
A Sixth Revelation

Thursday, August 27, 2009 – 10:00 a.m.

What has been said about the ashram in Montpellier is timeless and can be used for the occasion.

It is good to address this subject. Abhyasis must become aware of the importance of the site, of its real cosmic charge beyond its aesthetic considerations.

The ashram constitutes a meeting place for all, or even a place for retreats tailored to present needs.

May all our aspirants truly benefit from this place, this centre point of our energies. It is up to them to make an effort and to invest themselves accordingly; they will not regret it.

May all be blessed and strengthened.

Babuji
