Revered Babuji Maharaj

Whispers from The Brighter World
A Sixth Revelation

Thursday, October 8, 2009 – 3:00 p.m.

It is legitimate that you ask yourself questions, my dear son. This abundance of mediums is not surprising. The impact of the 'Whispers' is big news in our Mission and gives rise to new vocations. That is nothing new, and we can tell you that many mediums will come out of the shadows and be heard from. One should winnow truth from falsehood; imagination can create illusion

The facts are clear: we have been following the same path for years. The channel is good; do we have complaints about it? I do not think so. Logically, we should keep to it. The onus is on you to see where your heart inclines you; we leave you to choose. We are not worried. Your logic will prevail on this occasion, as on so many others.

It is up to you; we will come back to it. However, beware of opportunists. There are many of them around you – are you aware of it?

We love you and we want the best for you. We will follow up on this as soon as possible, my dear son.
