Whispers from The Brighter World
A Sixth Revelation

Tuesday, October 20, 2009 – 10:00 a.m.

My very dear son,

You are not alone, as we are walking by your side, my son, day after day. Our love glorifies your steps and carries you in this exemplary mission of yours where faith and love are the order of the day. When the time of assessment has come, we will be by your side, contemplating the scope of your work in this world where a future life is being built – that of a transformed and regenerated humanity, in terms of its divine principle. You should not delude yourself; this day will not come tomorrow, as humanity must suffer and grow more to reach this state.

The time for changes of all sorts will come, whereby humans will recognise their extreme smallness in the face of this higher power mentioned so often and will then act accordingly. Many divine beings will have to become incarnate on the Earth to help humanity in its planned evolution. Noble souls are acting to foster, here below, an adequate open-mindedness meant to lead to a spiritual unfolding for each one.

Our way is a critical element in this vast project. Our investment bears fruit. The Mission is being established in this world, and it is discreetly winning over hearts. We are also by your side in the material aspect of your existence, with all its worries generated by life here

below. We would like, at every moment, to put a balm on your heart and to lighten your footsteps, to spare you any suffering, any sorrow, which affects us as well. You are our Beloved Son; do not forget it. We cannot spare you the harshness of the passing days.

Receive all the love of our united hearts, dearest son – it is immense. You know this already; but why shouldn't we say and repeat it? We repeat ourselves all the time in these messages concerning you, but how else can we express ourselves in this special correspondence connecting our hearts with yours?

Our hope is to soothe your heart, at least for a while, with all this love bestowed on you.

Your Master, always attentive to your person, and grateful.

My very dear son, receive beyond words the best of our love.

Babuji
