Whispers from The Brighter World
A Sixth Revelation

Wednesday, January 20, 2010

My chosen son, you hold this Mission – so dear to us – in your hands, as people say. This figurative expression cannot reflect the true image of your action here below. It is beyond materiality, in its most amazing aspects and imposing effects. The veneration which you inspire [in people] is justified, but if our aspirants knew, they would act with greater rigour and increased fervour.

The Great Master also bows before your action; it reassures him on the future of this spiritual way, which is so close to our hearts. You give it its panache at the dawn of this new era full of promise for the evolution of beings. Those who follow us with faith must be able to benefit from it fully. Thus are the wishes expressed by the chorus of Masters, so attentive to humanity in dire distress in so many respects. We cannot lose confidence about its future evolution; our spiritual way is a blessing for all those who trust us and who are longing to live in a world that is purified and spiritually elevated.

Let us carry on, my dear son. We help you as much as possible, but you are the captain of this huge ship that sails through the torrents of ignorance and even of human foolishness, since it prevails at the present stage of evolution here below. Our brother and sister abhyasis have taken a step. May we lead them far beyond, to the sacred shores; such is the wish of all of us. And as far as you are concerned, dear great chosen

son of our united hearts, stand firm, won't you? We support you in this tough struggle of life. May our love lift you up to the highest summit where your place has long been reserved.

Receive our love, in these times of celebration, in all its might and its increased power.

We are by your side more than ever.

He who was your Master and who carries you on his heart unfailingly [wishes you] very good birthday celebrations.
