Whispers from The Brighter World
A Sixth Revelation

Monday, April 19, 2010 – 10:00 a.m.

Our Mission is at a crossroads in its history. Many steps have already been taken, and it has yet to conquer the world, the hearts, and the minds of many of those who wait for this very special kind of energy. The time has not come yet when it – this vibration – can be perceived and valued at its true worth. Some of our abhyasis who are more sensitive than others have begun to perceive their own subtlety, with respect to our principles and these messages given with precisely this aim – to develop within themselves the ability to perceive what is essential. Everything in our way works towards this flowering of the soul in its aspiration for the Divine, the ultimate goal of its journey.

Our aspirants are given the basic elements from the outset; it remains for them, by means of their efforts and perseverance, to grow this valuable asset that has been made available to them. There is no grand outward display; rather, our method goes to the main thing, to the objective, through interiorisation and regular practice, as well as the assimilation of its principles. Its benefits will become apparent with time. They will become, by the grace of God, an established fact.

May each one therefore act according to their faith in Him and in us, for the good of all.

Babuji
