Whispers from The Brighter World
A Sixth Revelation

Saturday, November 6, 2010 – 10:00 a.m.

This meeting was a great occasion, my dear daughter. The commitment of these three people is sincere and productive, with an impact that will come to light in the future. They are already involved in our Mission with love and respect for their Master.

He can trust them. None of them will disappoint him. This is worth emphasising here, at a time when egos and tendencies manifest themselves insidiously in our Mission. Unfortunately, this is the way it goes in this world, even if the best aspects in some of our aspirants bring them to spirituality.

We are imposing on your strength; rest, and love us as you do so well.

Blessings.

Babuji
