Whispers from The Brighter World
A Sixth Revelation

Wednesday, January 19, 2011 – 10:00 a.m.

The time for final assessment has not yet come, and yet, witnessing the expansion of our Mission in the world is rather heartening. Sahaj Marg is winning over hearts, little by little. Haven't all spiritual ways started in this way?

We have said it time and again, and yet the truth is that a new era is looming on the horizon – a revolution on a human scale, going in the right direction for the evolution of beings. Humanity must advance by reverting to healthier values that are less destructive, not only for the planet but also for people. Every aspect of their lives needs reconsidering. As for their spiritual evolution, few of them care about it. Present life on Earth is aberrant, on all levels. We are emphasising this point, as we cannot do otherwise given the incredible mess many people find themselves in today.

May the time of liberation come soon, a time in which a love song vibrates in every heart in a kind of apotheosis. Let us dream of that world and pray for it.
