Whispers from The Brighter World
A Sixth Revelation

Wednesday, February 9, 2011 – 10:00 a.m.

People's minds are opening up to the higher reality; it is high time for that. Adapting to this reality is the priority of a spiritual path in tune with its time and with a future that promises its expansion in the world.

Our dear Kamlesh is a visionary; he is one of a kind in our Mission, to which he devotes his life with fervour. We bless him. May he do his best in this matter, while giving priority to your well-being. Blessed are those who help you on this difficult path.
