*Beloved Master*
*Revered Babuji Maharaj*

Whispers from The Brighter World
A Sixth Revelation

Saturday, February 19, 2011 – 10:00 a.m.

We welcome this meeting. We were expecting it, and it should happen again. Times change and minds evolve, and therefore situations must adapt to the prevailing circumstances. This man is a good servant of the Mission, being honest and reliable. We expect him to foster a sort of revival of this ashram. The latter must evolve and be reshaped a little differently. Time will give it an aura such that it will be appreciated by many visitors and diligent aspirants. Nothing happens without reason. What you noted down a long time ago is valid here: 'There is no such thing as chance. It is an opportunity given to human beings for the fulfilment of their destiny.'

May all people of good will come together in the future and ensure that this place, already highly charged, takes on its true dimension.

Special blessings to all of you as well as to all those who ardently invest themselves in this important project.

Babuji
