Whispers from The Brighter World
A Sixth Revelation

Tuesday, February 22, 2011 – 10:00 a.m.

Human beings are born into this world and they disappear, such is the cycle of life. As for these writings, although they were initially overlooked, they will remain and over time become the reference of our Mission. They are part of the movement of time and are in line with a planned evolution. Blessed are the hearts that are nourished by them. They benefit from an energy that results from the impact that will be increasingly generated here below.

'Doesn't everything have its raison d'être!' Why would we give all these writings if they did not carry a heavenly and necessary message. The world is adrift, and people are lost in excesses of all kinds. Blessed are those who manage to stay on track and see, beyond appearances, the higher reality, which is alarmed by such decadence. It has been said: 'Blessed are the pure in heart, they will see the light'. May Sahaj Marg participate more and more in the transformation of humanity. 'What must be will be.'
