Whispers from The Brighter World
A Sixth Revelation

Monday, August 1, 2011 – 10:00 a.m.

My daughter, over the years these messages have nourished and strengthened your heart in the face of adversity. It now basks in this subtle energy which suffuses your whole being. These writings, as you can see more and more, also make their way into the hearts of our brothers and sisters. Everyone takes what they need, according to their inner dispositions. They react differently; however, what matters is that these writings be known and valued – that was our objective. They will increasingly become the hallmark of our path, and their impact will continue to grow. Blessed are those who understand this and work for their dissemination so that all can forthwith understand this phenomenon of transmission still little known to people of today.

Minds must open up to reality and value this means of communication, known since ancient times and still ignored by so many men and women who are limited to current knowledge. The ancient religions, in the beginning, used to practise as we are doing here, and this was accepted and respected by all.

Times change. Happy are open-minded people; they are saving precious time.
