Whispers from The Brighter World
A Sixth Revelation

Saturday, August 6, 2011 – 11:00 a.m.

A ray of light haloes your weary brow. Your heart moves us; it is the receptacle of this energy capable of producing messages coming from a world known by humans as 'the beyond'. They are intrigued by it. What is this mystery that is inaccessible to ordinary people at their level? It is not easy to access; one has to make some progress, besides having the gift of channelling.

This divine manna is a rich asset for our Mission. Time will reveal this on a large scale.

Nothing in this domain is done in vain. Be at peace, my daughter. You are our blessed scribe.
