Whispers from The Brighter World
A Sixth Revelation

Thursday, August 11, 2011 – 10:00 a.m.

The passage of time is inexorable; a fervent heart defies it. At this subtle level, love supports and sanctifies the being beyond laws and rules governing human lives.

Isn't everything done in vain? Apart from the quest for the Divine, everything else is karma, circumstances and human behaviour. A soul touched by grace overcomes all this, rising and going into raptures far from the points of reference in this world.

The world of the Spirit is unlimited, without borders; it is beyond time as perceived here below. It is the realm of mystery where the divine laws are respected, building the frame of this extraordinary power. The world of matter is subjected to multiple influences; this is trying in terms of the major balance, hence the many negative and destabilising events that affect all life on Earth.

Thus is life, in its many stages.
