Whispers from The Brighter World
A Sixth Revelation

Saturday, August 13, 2011 – 10:00 a.m.

Our dear 'pencil', let your heart express itself here. It gives off the fragrance maintained by ours. Our brothers and sisters need this refuge of peace and love, a daily break when their souls can go into raptures and connect to our souls. These messages are sacred vectors that touch the most subtle aspect in a person. Soul-stirring in their simplicity, they allow one to transcend materiality, to rise and reach a privileged space. We want the best for our abhyasis; nothing is neglected in this regard. Our way, in its underlying principles, reaches a sacred goal, indispensable for their elevation.

We focus on the main thing. There is nothing sensational in appearance, but the results are there and we rejoice in this.

The objective is to help people overcome the reign of materiality, to progress towards this goal whose beauty we praise.

May all souls be touched by grace and experience God within. We are working towards this in every aspect of our Mission.

Blessings to all.

Babuji
