Whispers from The Brighter World
A Sixth Revelation

Wednesday, August 17, 2011 – 10:00 a.m.

We know what you are going through. Of what importance is human assessment? The views of human beings are very limited; you are in a good position to know this. Like each one of them, you too are passing through on this Earth, and you are doing what you must as best you can – that's the main thing. Each and every one brings their modest contribution to the human edifice that forms the fabric of this world.

What will happen tomorrow? No one can say. Yes, upheavals are brewing; some of our abhyasis are obsessed with this. Sooner or later they will happen, but where or how? We cannot say exactly. What matters is to continue advancing spiritually and to grow, in the sense of elevating the soul. This is a wise attitude, and it suits many of our brothers and sisters. All are in transit on this Earth – without exception. The divine laws shape human destiny as they see fit, and no one can escape them; that is the way it goes.
