Whispers from The Brighter World
A Sixth Revelation

Monday, September 5, 2011 – 10:00 a.m.

A lot of time is needed to structure a spiritual Mission such as ours. This diagram gives a simplified but true idea of it. These four cardinal points – represented by the four Masters – will give the Mission reference points in the future. Each Master will have left his glorious mark as wished by the higher powers. The times to come will benefit from this diagrammatic pyramid. It shows the steps of our Mission, which has already influenced the present time and will be a benchmark for spirituality in the future.

Aspirations change with the times. Humans are evolving slowly, but somehow they are opening to the higher reality. Blessed are those who can foresee it and are striving towards it. Some of them have devoted their lives to it; they are 'envoys' carrying a divine message to people of good will – of which our Mission is an example. May all our aspirants be divinely inspired and give the best of themselves under our blessings.
