Whispers from The Brighter World
A Sixth Revelation

Monday, September 19, 2011 – 10:00 a.m.

When love has become humanity's creed, its reference and reason for being, a very large step will have been taken. Let us dream of that time, and above all, let us act in this direction. There is so much to do: the best in each being should be able to express itself and change the many human practices that are so detestable. Our Mission is moving in this direction. The task is enormous, yet it is necessary for our abhyasis to truly realise the situation and understand that a seemingly simple way like ours can have a palpable effect on this prospect. It all seems so simple in our practice, and yet it is effective when it is followed to the letter.

Some of our aspirants are dilettantes; this is unfortunate. They forgo a rare opportunity to make real progress. Time is running out for all. No one knows what tomorrow will bring. So why not give priority to what is essential?

It is up to each one to see and to ponder this aspect of things. Worldly matters should not encroach upon the spiritual; that is our advice.

May all our brothers and sisters devote the best of themselves to what is crucial for their evolution – this is our wish, with our blessings.

Babuji
