Whispers from The Brighter World
A Sixth Revelation

Tuesday, September 27, 2011 – 10:00 a.m.

This long journey has generated thousands of messages, of which only a few are known. Time will grant them 'letters of nobility', those of the heart on its way to the Eternal. Life on Earth is a constant repetition of acts and events of all kinds. Spiritual practice enters into that: rituals are repeated on a daily basis and become an essential part of a day for the elevation of the soul. The material aspect is provided; life obliges in this way. An approach like ours is a requirement of the soul, a process of profound waiting, urging human beings to surpass themselves, to seek within themselves the food suitable for their spiritual nourishment, for what is henceforth inherently necessary for their fulfilment.

Many people are searching in vain. They dwell on materiality, in its most disappointing aspect. Trials are necessary for human beings; they often lead a person to an awareness of an inner call, which up until then had not seemed important. What matters is to arrive at this realisation and to find 'the way' capable of satisfying this need to become familiar with the best in one's being. In due time, the call of the Divine arises; each one feels it sooner or later – such are the laws. May the greatest number of people seize this opportunity. It changes a person's life in the most beautiful way. Such is our wish for all.
