Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World
A Sixth Revelation

Monday, October 3, 2011 – 9:00 p.m.

My dearest Parthasarathi,
Your wisdom is already legendary; it comes from very far back in time and will remain an essential feature of your mission, upon which your stature will leave its mark forevermore. We congratulate you for this choice. It will be decisive for the future, with regard to the ongoing action in the Mission.

You still have much to do, you can be sure; this includes the induction process of your successor. You will be able to instil in him the fruit of your experience: that of a wise man. The task is heavy, but his potential will allow him to cope with it.

We are all delighted with this breakthrough in the history of our way. Rest assured, this is a wise choice.

This nomination is followed by positive reactions; this is noteworthy. Abhyasis were wondering what the future held going forward in this critical area.

This act of yours is additional evidence of your strength of action and endeavour: you act when and as needed. This is a big step for you and for our Mission. Time will do its work. Therefore, let it operate according to divine plans. We thank you, our dear great son, for your remarkable work. Let us underline it once again: we admire you and we love you.

Be at peace and reassured: everything will fall into place in due time.

We are by your side as always, with all possible attention.

Your admiring and satisfied Master,

Babuji
