Whispers from The Brighter World
A Sixth Revelation

Saturday, October 15, 2011 – 10:00 a.m.

The idea of displaying a message in the ashram is a good one. It is another way of integrating these writings into the lives of our abhyasis who frequent this sacred place. This is a kind of offering to the spirit of the united Masters. We have already said that this ashram is now rising to another vibratory level, which is fostered by its physical expansion.

May all be blessed and strengthened in their faith in our divine principles.
