Whispers from The Brighter World
A Sixth Revelation

Sunday, October 23, 2011 – 10:00 a.m.

A step is cleared for the Montpellier ashram. This extension of the premises henceforth fosters a vibratory action of a different magnitude. That is the way it goes: the divine laws have their reasons; everything is done as planned and in due time.

May our brother and sister abhyasis fully benefit from it and consider this asset as a blessing for them all, and may they appreciate it as they should, with gratitude.

Do they realise their luck? Having such a place at their disposal should make them even more ardent in their approach. Not everyone has such a suitable space where they can express their faith in a living Master, symbol of an important cosmic action. This action is preparing future times, thanks to the winning of hearts through love, and not through the hatred that prevails in this world.

They all have a choice. It is up to them.
