Whispers from The Brighter World
A Sixth Revelation

Tuesday, November 8, 2011 – 10:00 a.m.

Let ignorant people talk. Continue on your way, with the faith and love that carry you. We are by your side. Your mission is important in our way; these writings convey a teaching in line with current and future times. We have said it again and again, and yet we have to insist on what the messages bring to our aspirants who have understood their importance and have also felt their benefit. A sensitive soul is receptive; it is nourished by a specific vibration emanating from these writings. Blessed are the wise; they are guided and lifted up to the ultimate peace.

May the greatest number of people understand this and seize the opportunity given to them. Blessings to all.

Babuji
