Whispers from The Brighter World
A Sixth Revelation

Friday, January 6, 2012 – 10:00 a.m.

How could love not be celebrated, this love that transports the soul towards the immutable source! What would humans be without this sacred refuge where their whole being is strengthened through loving? This kind of love has no limit and embellishes everything it touches. The accompanying grace transforms people and allows them to reach levels of consciousness which they could not otherwise access. This divine energy can work miracles. When called from the depths of the heart, it magnifies the whole being.

May our aspirants become aware of this truth in a world gone mad, where all is illusion. Our way has this advantage: it enlightens beings and makes them aware of this reality; it is capable of bringing them to the best through perseverance and surrender to the higher forces.
