Whispers from The Brighter World
A Sixth Revelation

Friday, January 6, 2012 – 11:00 a.m.

The spiritual Master is chosen by the higher authorities. He becomes incarnate to accomplish a specific mission, namely, that of helping humanity. From time immemorial, the divine power has been manifesting in this way. These great beings are indwelt; their human person is blessed with a highly spiritualised attainment meant to be transmitted and to help humanity advance. Our way benefits from this major advantage: an incarnate Master capable of acting on all levels of consciousness. Thus wonders can be accomplished. With the transformation of hearts, it opens up new prospects that are satisfying for human evolution. There is so much to do; reaching a higher level of consciousness is desirable. Such is the goal of our work. May it be fully understood and accepted.

May all our aspirants be blessed and strengthened.
