Whispers from The Brighter World
A Sixth Revelation

Wednesday, January 11, 2012 – 10:00 a.m.

Many of our aspirants are currently confused by numerous fanciful predictions about times to come. Changes will occur: this is in the order of things and should not concern them to such an extent. Nothing will stop what the future holds for this planet; the important thing for them is to advance, to rise spiritually. All that constitutes their attainment in this area is essential; it will be their ultimate possession upon leaving this world. Material goods are unimportant here; only what the heart conceals of its beautiful aspects is constructive for them. The road to the future is beyond materiality, hence beyond human evaluation. A spiritual way is a means given to human beings to meet their expectations in this regard. May the greatest number derive the utmost benefit from what we are, accordingly, offering them. Such is our wish for them.
