Whispers from The Brighter World
A Sixth Revelation

Friday, February 3, 2012 – 10:00 a.m.

Soon after these anniversaries, we can see their benefits. Every abhyasi is committed in his or her own way, and each one reaps the fruit of this spiritual work. It is good to thus witness the development of our Mission; threads are being reinforced, forming the solid canvas on which its history is being written. It will be studied and 'dissected' by researchers in search of truth; the primary truth is that the effects are felt in people's hearts, and we are happy to see this. Not all our aspirants can really assess what the method produces in them; it is not apparent to the abhyasi, as it is deep in the depths of the being. This does not matter. It is a proven fact that abhyasis are advancing and being transformed for their greater good, although imperceptibly, even if their character traits still manifest themselves. That is another matter; these traits will fade with time. We are working towards that. This is the way it goes.
