Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World
A Sixth Revelation

Tuesday, February 28, 2012 – 10:00 a.m.

What happens in these sittings is unique and especially suited to the situation of the two people involved. Our spiritual way is unique; it possesses great resources in spite of an apparent simplicity. Only perseverance and a deep pondering of its principles allow one to grasp its full scope and reap the associated benefits, which can be significant depending on the aspirant's commitment. Our system is based on highly spiritualised foundations, suited to current times in which an expansion of consciousness, necessary for human evolution, has been programmed. To accept this system of communication with the Spirit of the Masters of the Mission shows a satisfactory openness of heart in our aspirants, and this bodes well for their achieving the best results. Humanity must progress in this direction; stagnation in this matter is very negative. May all our aspirants advance in the confidence they have in their Master, who represents the Chosen Powers.
