Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World
A Sixth Revelation

Tuesday, March 27, 2012 – 7:00 p.m.

My dear son,

We are happy to see that you consider this symbol with attention and respect. Indeed, it represents the future of our Mission in terms of the privileged status it will be granted. To begin with, it is good as of now to make it known to our fervent servants – and above all, to make sure it is appreciated by them – and then to share it widely so that all our aspirants can know about it and become conscious of what our way truly represents, especially in terms of the place it will hold in the future.

All sincere hearts who revere their Master will see this beyond appearances and will consider it an advantage to have this object in their possession. More than that, they will see it as a true blessing of the Masters who inspired it and who saw to it that one day it would be given to them, through the initiative of their current Master.

My dear son, this seemingly unimportant action marks a step forward in our great spiritual movement that is advancing towards a future that is far reaching and driven by higher powers. You always did what was required at the appointed time. We greatly appreciate your enlightened mind and the decisions that you make at the opportune moment. We are very grateful to you, and we all carry you with much love in these times that are difficult for you. We are all at your side.

Your loving and admiring Master, as always.
All the best to you, dearest Parthasarathi.

Babuji
