Whispers from The Brighter World

My dear great Chosen son,

"On this very special day, we cannot refrain from reverting to the apotheosis that is this special moment in our Mission. So many abhyasis are looking towards you and calling you from the bottom of their hearts. This moment is rare and it is an important milestone for all; it creates unity and constant remembrance, as recommended in our way. Constant remembrance is so precious in the effervescence of these unique moments. We have amply talked about this birth anniversary and we mean to say once again that it would be good to share the messages related to this event.

"These messages are meant to support all aspects concerning this issue: these celebrations go far beyond the being concerned here, they create — as we have already said — a very special vibration meant to benefit everyone. The Mission will continue to be structured across the world; it is very important to observe this moment of pause and reflection. They facilitate a more subtle approach to phenomena. Revering one's Master on that day is very commendable, as is the observance of the other birth anniversaries throughout the year. These are important milestones, which we have already underlined. It is critical to raise the awareness of all abhyasis on these feats of spirituality; this is what we have been trying [to do] for several days. We can already witness the impact on individual hearts; it is very heartening to see it. May our beloved great son keep going in the service of divine omnipotence in a fully masterly fashion, as we know he is capable of.

"To him, the best of our united hearts; in these moments they are all devoted to him."
