Whispers from The Brighter World

Tuesday, July 31, 2012 — 10:00 a.m.

The human race is what it is. We have no magic wand. We are doing our best to make it move forward, but it is not simple. A very large number of our abhyasis are making progress — that makes us happy. Our hearts are delighted when we see a soul opening to the Divine and moving in this way of love in its noblest expression.

"Some of our abhyasis are putting obstacles to their progress by inappropriate behaviour, which brings about regrettable disturbances to our way. No system on Earth is spared, thus is human nature. Seeing only the beautiful in everyone allows every hope for a perfect world.

"Time will come when it will happen. After many storms, intense suffering and consequential upheavals, man will have to excel and leave behind the ponderousness inherent in their current status.

"Advancing at any cost; touching hearts; helping them realise their true nature through a sound teaching meant to guide them along with an effective practice whose results become very obvious over time; focusing on what is essential; opening one's heart to beauty, righteousness and divinised love — all of these define the noblest attitude possible.

"May all be blessed and strengthened."
