My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Saturday, August 11, 2012 — 10:00 a.m.

My dearest Parthasarathi, your Master, is struggling with an ailing physical body. His action on the spiritual plane is increased tenfold. Nothing is lost at that level, quite the contrary, and that amazes us.

"Every day, he lives up to expectations and demonstrates his power. We wish him some relief in his physical body, and his circle should ensure that the atmosphere around him is harmonious and serene. We carry him with love. We do not make sweeping statements, but we are acting in our own way for his welfare and that of our Sahaj Marg Mission. The durability of our Mission is guaranteed forever — yesterday, today and tomorrow — so will it be. This spiritual way is granted to human beings at a pivotal time when a profound mutation is in the offing in this world. Spiritual advancement leads humans to a vibratory state more conducive to coping with the upcoming changes. The power of the united Masters provides it; we surround our dearest great son and we support him in every way. Unfortunately, we cannot change that which must happen at the human level. We help him as best we can; our love carries him continually.

"We wish to reassure our abhyasis: we are at his side in every respect and he is not forgotten, far from it. We all went through difficult times; that is unavoidable. His light is growing, his aura is the hallmark of the very great, and we carry him and bless him especially through his current very difficult time. May peace and love spread throughout our Mission under our blessings."
