Whispers from The Brighter World

Sunday, August 12, 2012 — 10:00 a.m.

Many of our brothers and sisters now await these daily messages. This is a very good initiative from their Master, our great Parthasarathi. It makes them feel closer to him and they feel kept abreast of the current affairs of the Mission while it is troubled by the ordeals he must endure in keeping with the laws of this world that spare no one — not even such spiritual Great Beings. Despite all this, his action continues unabated and with great clarity: such is the hallmark of Masters of this nature in this world. Everything is being organised harmoniously for the future of our Mission; the number of abhyasis is increasing, as was long planned. The Mission has been structured over the years and yields the desired impact to provide humans with what many of them are looking for, even if in the current situation their waiting for it is unconscious.

"We have already said that seeing only what is beautiful and great in our way is constructive. The forces of good are working accordingly through their own personal and uplifting approaches. Let trust reign; peace and harmony will ensue in our Mission. A spiritual Master expects fidelity and perseverance from all committed beings in the conduct of their practice; thus will Sahaj Marg carry on its journey and thrive at the human level for the good of everyone, with our very special blessings."
