Whispers from The Brighter World

Thursday, August 16, 2012 — 10:00 a.m.

The appearance of our very dear great son Parthasarathi [special bhandara of August 15] has moved people's hearts. Until the end he will leave his mark on this Mission by his greatness, his competence and the love he arouses in this world. Through this means of communication [live broadcast], abhyasis were more united in that communion. It will leave a lasting impression on them. Everything is in place to lighten his activity on the material plane; spiritually — let's emphasise this point — everything is being accomplished here on Earth in a masterly fashion.

"The union of hearts and respect for his choices in every aspect are the only and true signs of love all abhyasis around the world can offer him. Whatever may happen in the future, his spirit will always be as vigilant, if not more so, for this Mission that is so close to our hearts, to all of us, united in this Divine Alliance in the service of such a great cause. We expect this 'union of hearts' among all our brothers and sisters. For him and for us, the best proof of love lies in respecting his choices, and hence his divine person.

"Unity is strength. It is up to everyone to understand it, and to act and behave as a loyal member of this great spiritual way offered to today's men and women in search of the Divine. May joy and serenity suffuse the hearts in homage to his greatness!"
