Whispers from The Brighter World

Thursday, August 30, 2012 — 9:00 a.m.

Let your heart speak; we inspire it to translate the flow of our thoughts into words. The alliance of Masters, as you have witnessed over all these years, is still present and active with this beautiful way of Sahaj Marg. We particularly support our dear son Parthasarathi at this difficult time, through which he is bravely facing up to things. His nature is as follows: he has always exhibited great determination and remarkable clairvoyance. Certain events must occur and this is in the order of things. On the human plane, we cannot circumvent certain laws; they must apply and whatever they are, they are ultimately necessary for the proper order of things. It is not always easy to understand these subtleties: why this and why that, our abhyasis say, but perfection is not of this world and they know it very well.

"The essential thing — isn't it the great aspect that emerges from this Sahaj Marg mystical epic! The Mission has its own weaknesses in terms of human behaviours, that is inevitable; but on the spiritual plane, even if it is not measurable, its action is great. There lies our joy in the face of this battle; this word is not too strong here where there is so much to do. Having an incarnate Master is a tremendous grace. May all our brothers and sisters become aware of this fact; it is not commonplace, since it involves a highly spiritualised Being capable of acting at different levels of consciousness under the guidance of the Chosen Ones for the good of human beings.

"Blessings."
