Whispers from The Brighter World

Tuesday, September 4, 2012 — 10:00 a.m.

We are waiting for you here in this sacred place where your heart lays itself bare. This surrender allows messages to be noted down. Having a gift would not be enough; for this, another dimension must be added to this mediumistic capacity. It requires total commitment and, above all, extraordinary love. An appropriate vibration ensures that these lines are written and in time will produce a tremendous contribution to our Mission. In the future, these writings will become unavoidable; they will be an integral part of our teaching, that is how it is. Minds will keep opening up to this reality for the good of human beings. Unprecedented openness will occur in this direction; we need to go forward and lead our brothers and sisters to a broad understanding of these phenomena that are ignored by many people. Progress continues to be cited; it seems to be the key word in this modern society. Perhaps it too should open up to other possibilities far removed from materiality!

"Our brothers and sisters should also approach this reality that is beyond them. Indeed, since this reality is voluntarily ignored, modern society does not have access to knowledge as proposed in these times when darkness prevails on many levels. These comments may be shocking, but it is high time that minds open up and that this aspect of life is no longer ignored. We are not the first ones in this area to use this means of communication. We have already said it, but it was never made clear, hence the current state of ignorance on this point in certain countries. We need to go forward; therefore may all abhyasis open up to this teaching. Such is our wish for the good of all."
