Whispers from The Brighter World

Thursday, September 6, 2012 — 9:00 a.m.

This moment shared by your heart and ours is unique. We have expressed ourselves here for so many years, and thousands of messages have resulted from these contacts. The process is nothing new: all sacred texts since time immemorial have always been inspired this way. It is important to emphasise it again: the great beings who have left their mark in this world were always spiritually guided in this manner. Our Mission is no exception. At this level, this is a rare blessing and the hallmark of great movements that are called upon to have an influence in their time on this Earth. Therefore let us rejoice for enjoying such a privilege that is valuable in every respect. The integration of these messages into our teaching is making its way into the hearts and that makes us happy.

"The times ahead will not be easy. Our abhyasis have this important refuge: faith in a beyond where divine power is omnipresent and is being manifested here on Earth by the action of the living Master. This is not negligible. Being incarnate, his action is increased tenfold in many circumstances.

"Our way has this major asset and its prerogatives are thus reinforced. Blessed are those who are advancing on this path: that of a spiritual commitment conducive to their evolution. The ultimate goal lies within view of all our brothers and sisters. It is up to them — according to their perseverance — to go forward and go further, driven by the action of their Master.

"To them, the best."
