Whispers from The Brighter World

Tuesday, September 25, 2012 — 10:00 a.m.

Protect yourself more from the vagaries of life and regain serenity — that which enables this contact. It is important because these messages are now awaited by our abhyasis around the world. Is this not a good result! This fact testifies to an opening of hearts. Our way prepares them in more than one way; they are evolving differently, without even realising it. Only the result of this endeavour is significant. We can judge from the results obtained by the different means of approach offered to our aspirants.

"The commitment of the youth is commendable; they are preparing a future where open-mindedness will be confirmed despite the many tumults that will occur around the world. Keeping an unwavering course of action in an approach of this kind allows one to stay focused on what is essential amidst the storm. The anchoring point lies there, within oneself, away from the hustle and bustle and controversies which Earthlings are fond of.

"This planet, too, is on a rising path, but humans have yet to realise it and take advantage of the opportunity offered by the movement of life in its most subtle essence. Perfection here on Earth will not manifest itself tomorrow. As a priority, harmony and peace should prevail, instead of these eternal fights caused by the differences of races, religions and ideas. May mankind reach a higher level of consciousness where people will be able to live in harmony in a better world that is more focused on an ideal of peace, and where individual choices are respected regarding spiritual matters — which manifest in more than one way.

"Our blessings to all."
