Whispers from The Brighter World

Friday, October 19, 2012 — 10:00 a.m.

Let us carry on with these messages a little longer; many hearts are nourished by them and express their happiness to be reading them. We cannot please all our aspirants. Some are less open and receptive than others, and even if we regret it, this is how it is. In this new era that is dawning, it is appropriate to go higher and farther in knowledge. The Sahaj Marg way was born with this purpose: to lead as far as possible those beings who are willing to undertake this process. Born in a transitional period, its foundations are being strengthened, and it is winning over hearts through its simplicity and effectiveness, even if this effectiveness is not obvious; only the long-term result matters. This result exists and is gradually being strengthened, taking beings who are willing to follow this process towards a more satisfactory vibrational state. Thus is the best built. Abhyasis advance according to their motivation, helped by the action of the incarnate Master. We can see aspirants advancing, becoming lighter and gaining a space of beauty that human nature cannot detect. What is essential is this work; the receptiveness of each aspirant facilitates it. All of them, without exception, receive and benefit from an energy that redeems them.

We are thus preparing the future. The human race, since Cro-Magnon man, has completely changed; what it will become tomorrow would surprise today's humans. Its capabilities will be great — phenomenal as compared to those distant ancestors, and amazing to today's humans. May all our brothers and sisters understand the need to become refined and to elevate themselves; their next incarnations will take this into account.
