Whispers from The Brighter World

Wednesday, October 24, 2012 – 10:00 a.m.

These messages are advancing in people's hearts. Blessed are those who benefit from them and appreciate this fact; they are opening up to a vibrational state that will help them greatly on their path.

The world of the Spirit has vast resources that are unimaginable to humans. One day, humans will be approaching it and will be amazed at what they discover; knowledge goes far beyond what humans can conceive here below. The most learned, the most apt to grasp the imperceptible will remain dumbfounded in the face of the universe that will unfold before them when they have gone beyond the boundaries of the material world.

Advancing spiritually enables one to go beyond shadow areas, which confine humans to their present state. The world of the Spirit is to be conquered; that world cannot disappoint. Moving towards it enables one to really experience the intensity that is the hallmark of that world. We are trying to make our brothers and sisters receptive to this dimension that they cannot imagine. The heaviness in which they live confines them to this shore – one where promises of an elsewhere are real. Here, we are preparing our aspirants for that journey, a mystical flight that is most fulfilling. They will not regret their commitment. Beings are evolving imperceptibly. They are accessing higher levels of consciousness and saving valuable time. Here, we are not giving beautiful pictures or making rash promises; we just want to put people in tune with a reality that

lies beyond human understanding. It is up to each one to become fully involved in the process that we propose; it bears fruit, you can all be sure.
