Whispers from The Brighter World

The divine intentions are unfathomable: man faces his own destiny and he must come to terms with its consequences whatever they may be. Acting as best as possible, putting up with his weaknesses, and using his strength — being carried by faith — he becomes strong and he surrenders to this higher power. Refusing this power does not help. So many people thus get lost on the path of life, where nothing is simple. From the humblest to the greatest, everyone is confronted with tests of all kinds.

"Having faith in an ideal and acting accordingly lay a strong foundation for facing up to one's own destiny. Following a spiritual way gives strength. Blessed are those who possess it; they embark on a journey that prepares them for the beyond that is so mysterious to humans. This world has its own laws, its strict rules, as well as its multiple opportunities for any being who awakens to higher consciousness. Faith in these powerful forces opens doors, those of the sovereign Spirit — that divine energy which offers all possible hope.

"Committed humans who engage in this way of the heart choose the one that suits them and that meets their aspirations. What we offer our abhyasis is simple and devoid of rituals of all kinds. Focusing on the essentials saves valuable time. Life is short in this regard; one should not forget it and should act accordingly.

"We are witnessing the arrival of many young people in our Mission; this is promising. They bring passion, an eagerness to move forward — especially towards an understanding of the process in which they engage. Faith in our principles, steadfast practice, and eagerness to understand the journey of a soul lead them to a way full of spiritual perspective. All our abhyasis are monitored and helped according to their call; we do not force anything, but the doors are wide open to all."
