Whispers from The Brighter World

Tuesday, November 20, 2012 – 10:00 a.m.

This young lady is nice; she is a great asset for the Mission, which supports her in her actions. This Mission, in its entirety, consists of a wide spectrum of aspirants, personalities of all kinds, some of whom have a more prominent role within it. Through their respective behaviours, all of them lend to this path its distinctive human characteristics. Our teaching appears simple, but it has features that give it its strength. The vibratory power of its action in people's hearts is growing. As we have already pointed out, it operates beyond the circle of abhyasis, and especially on other planes of consciousness, through these messages which are followed and appreciated by many beings. That seems difficult to understand, but the world of the Spirit is extremely vast; at certain of its levels, these messages are appreciated. It may come as a surprise for some of our aspirants, but that is how it is. Many worlds are similar to this planet Earth in terms of difficulties, which cannot be comprehended by humans who are not aware of these phenomena. Humans have so much to discover and learn about the realities of life in its many manifestations. The various planets are like the many elements that make up the human body – a whole that is necessary and coherent for its purpose. All the elements in our Sahaj Marg Mission are not saints, but this diversity is needed to make humans aware of the precariousness of life in all its manifestations.

*May all our aspirants realise what an incarnation grants them to overcome their weaknesses and progress towards good. This is possible for all; time is running out.*

*Babuji*
