Whispers from The Brighter World

Saturday, December 15, 2012 — 10:00 a.m.

Long is the way, but all these efforts bear fruit. Seeing a soul who is awakening to the divine splendour provides unparalleled joy. Imagine the heavenly gardener looking at the blooming of the most beautiful flowers. Our Mission is growing and spreading, which encourages us to move forward and to shake up our abhyasis somewhat with comments that are likely to surprise them.

"We need to go step by step, but steadily, and speak about that future that will see major changes occur, thus contributing to overall development. An expansion of consciousness is desired. Our candidates must make an effort to go beyond themselves and their egotistical tendencies; the latter seriously hinder their evolution. We cannot solve it all; everyone must make an effort to adjust themselves to behaviours that can foster a surrendering to the Divine, to all its many manifestations that are appropriate to the needs of spiritual advancement. The Master operates at the highest level; abhyasis should be able to overcome their weaknesses and use them as a force capable of transforming their own destiny. Nothing is achieved without effort, and grace always occurs at the appropriate time. The school of life does not in any way violate the divine laws; all abhyasis must go through very difficult times in order to better understand their true potential. Opening one's heart to this beauty testifies to a deep and sincere call; this call attracts our hearts, as well as our vigilance in reinforcing the seeker in this noble advancement.

"It all takes place in a timely manner; chance does not exist — an opportunity is offered to man when his destiny so permits, and this can totally change his life. May all be blessed and strengthened."
