Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, December 17, 2012 – 10:00 a.m.

Regain serenity, visualise the centre of the 'star'* and immerse yourself in us. There lies peace. The turmoil of this world is forgotten and your heart surrenders to our hearts in the most beautiful manner. There, this process can begin, in which we impress our energies upon you through words that are noted down on paper. Your heart is ecstatic and you transcribe our thoughts. That is a whole process that transcends the gift itself; we go much further through these sublimated contacts in which we express ourselves in a special way. These writings are charged and highly promising; with time, our abhyasis will discover their richness.

This richness goes well beyond an initial superficial impression. One who is attentive and committed can discover much more depending on the aspirations of his or her sensitive being. The heart is the celestial guardian; when it is sufficiently open, it can recognise the importance of what is proposed to it.

The heart is the seat of the soul, and there lies the real mystery. All the great mystics of the past already knew it, but this revelation will unfold in due time. We are preparing receptive beings for that revelation. Our way is geared toward that. It is suitable for the present time and is preparing the future thanks to a true advancement taking place in people's hearts. The true mystics totally committed to our path are highly promising elements and so very valuable to the way. The heart gives life, not only at the material level, and yet it remains a mystery to humans and the centre point of their

evolution. By the grace of the Masters, human beings can perceive these faculties and act to promote what they are calling for within themselves, which is exalted by the divine power. Let peace reign in each one.

Babuji

* Reference to the star in the symbol described in Volume 2, Message of 7 September 1999
