Whispers from The Brighter World

Friday, January 4, 2013 — 10:00 a.m.

A new year begins for this Mission that is so important to us. Our full attention is granted to it as well as to our dear Parthasarathi, our son who is Chosen and blessed by the gods. It is so gratifying to see the expansion of this way that is adapted to present times and more and more capable of winning over hearts to a future rich in twists and turns and transformations of all kinds. Humans will have to adapt; they will have no choice. But after much turmoil, a new world will emerge from the chaos and will establish down here other rules and laws adapted to the situation at that time. Many humans will then understand the need to advance spiritually in a constructive manner. Notions of life beyond this life and of reincarnation will finally be adopted by the greatest number. It is time that true knowledge is spread across the world; humans cannot stagnate eternally and be confined to false teachings. In reality, life on Earth is short; time should not be wasted as it is very valuable. Everything is counted and interpreted, and it either does or does not contribute to the elevation of the soul. Time is running out; it is infinitely precious. May this awareness infuse all human beings and encourage them to produce the best down here.

"May the time soon come for this renewal, for peace on Earth and for a global action for the good of all, under our blessings."
