Whispers from The Brighter World

Sunday, January 20, 2013 — 10:00 a.m.

Think of the beautiful progress we have made with these messages; they are currently winning over hearts and this is not nearly finished. The words are not insignificant; all of them are charged in some manner, and there lies the most important thing. This is, and will remain, to be considered. Nothing happens without reason in our Mission. Abhyasis must bear in mind this aspect of things.

"With regard to spirituality, many decisions may surprise, and so may some texts. Our aspirants must go beyond and try to understand what we are trying to tell them. Truly interiorising oneself may shed new light on events that punctuate the life of our Mission. It is expanding in the world and bringing about changes in the habits of many people. Challenging oneself — isn't it what is called for in a process like this? Humans must constantly adapt themselves in the course of their lives; in every respect, none of their lives is immutable. The many episodes of a life on this Earth constitute a decisive contribution to the evolution of a being. Making the most of the multiple experiences granted to them is an important aspect of things which our aspirants must also consider, in order to grow and take advantage of what is offered by an incarnation with the various events that characterise it. Positive and negative sides complement each other for the good of everyone; an absolutely perfect life would not be uplifting in our sense of the word. We try to draw the attention of our brothers and sisters to many things. Nothing is simple here below, and humans are complicated. Everyone is faced with karmic laws and must manage the egotistic part of their natures.

"May all our aspirants do their level best. We cannot solve everything for them; the spiritual aspect remains our top priority. May our love always carry them. Whatever happens, they will never be forgotten.

"Blessings to all."
