Whispers from The Brighter World

Saturday, January 26, 2013 — 10:00 a.m.

Interiorise yourself and come to us in the heart of silence, where all is beauty. Here, daily worries fade away and you are attentively listening to us. Thousands of messages have punctuated the course of your days in the past twenty years, and they have accumulated for the benefit of our Mission. This is indisputable. These writings have been, and still are, surprising, but a way like ours must transcend certain preconceptions that are not in line with the spirit of openness — openness about a reality that is not yet known as it should be for the evolution of human beings. How many people on Earth have a balanced view of the afterlife, as you call it? These wrong ideas hinder the journey of many human beings who are trapped in misconceptions that limit their approach to the Divine.

"Working on oneself, on the human side, in order to facilitate an effective and exemplary action related to true spirituality is the right attitude. Nothing can be achieved without difficulty and tenacity, which, along with a surrendered and fervent heart, prepare the being for a great step forward on the path to the elevation of the soul. The noblest inner dispositions require adequate enlightenment; thus is the best generated, and we can truly confirm it, as nothing in this area escapes us. We are here, and we see well beyond appearances; they cannot in any way deceive us. This is fundamental to achieving true efficiency.

"Human judgements and misconceptions that are not based on reality — a reality that is not accessible in this world — cannot distract us from our purpose, which is related to the good and the growth of this beautiful spiritual way granted to the world of today and tomorrow.

This fact is not trivial; it foreshadows all that will be done in the future for the spiritual upliftment of all. There lies our continual activity. We want the best for all our brothers and sisters who are moving in the wake of their Master, with confidence in his action that is supported by ours — such a very attentive one. May all be open and determined to move forward; that is the goal to be reached under our benevolent blessings."
